

SESAR / PCP	Affected EASA rules	Driver	Task No. (old no.)	Title	Description	R2 Environmental Protection R3 Flight standards R4 Product Safety R5 ATM/Airports	Work method	Task leading to	Planned ToR Year	Planned Opinion/ Decision Year	Changes from draft RMP 2014-2017 to RMP 2014-2017
SESAR	Ground systems & constituents	SESAR/ Technological development	RMT.0530	3 and 5NM separation operations	Ground based equipment constituents and systems that support 3 and 5NM separation operations	ATM/ADR	Agency	Decision	TBD	TBD	
SESAR	CS-ACS/N; Part-ATS; Part-ARO AMC/GM; SO ATM/ANS; Part-SPA AMC/GM; Ground systems & constituents	SESAR/ Technological development	RMT.0532	ASPA Operations	Introduction of provision for ADS-B IN ASPA applications	ATM/ADR	Group	Opinion&decision	TBD	TBD	
SESAR	Ground systems & constituents	SESAR/ Technological development	RMT.0531	Data exchange	Ground based equipment constituents and systems that support surveillance data exchange	ATM/ADR	Agency	Decision	TBD	TBD	
SESAR	Ground systems & constituents	SESAR/ Technological development	RMT.0527	Ground Systems and Constituents for AMAN/DMAN	Introduction of provision for technical requirements in support of AMAN/DMAN	ATM/ADR	Agency	Decision	TBD	TBD	
SESAR	Ground systems & constituents	Technological development	RMT.0528	Ground Systems and Constituents for VCS	Introduction of provision for technical requirements in support of Voive communication (VHF)	ATM/ADR	Agency	Decision	TBD	TBD	
SESAR	Part-ARO AMC/GM; SO ATM/ANS AMC/GM; Ground systems & constituents	SESAR/ Technological development	RMT.0523	Harmonised PBN application	A harmonised understand and application of PBN approval requirements	ATM/ADR	Group	Decision	TBD	TBD	
SESAR	CS-ACS/N; Part-SPA AMC/GM; Part -ARO AMC/GM; SO ATM/ANS;CR ATM/ANS plus AMC/GM	SESAR/ Technological development	RMT.0533	PBN Curved approach operations	Introdction of provision for PBN Curved approach operations	ATM/ADR	Group	Opinion&decision	TBD	TBD	
SESAR		SESAR/ Technological development	RMT.0526	SWIM technology	Introduction of provisions for technical requirements with respect to the introduction of System Wide Information Management (SWIM)	ATM/ADR	Group	Opinion&decision	TBD	TBD	
PCP	CS ACS/N; 29/2009;1032/2006; 1035/2011;1332/2011; 633/2007 Part-CAT; Part NCC; Ground systems & constituents		RMT.0627	Data link operation to support PCP	Data link operation using ADS-C Extended Projected Profile	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	ADR rules; Ground systems & constituents		RMT.0628	Airport intergration and throughput	Requirements for departure management and guidance by the use of a A-CDM, DMAN and A-SMGCS	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	1332/2010; 1035/2011; 923/2012(SERA); Ground systems & constituents		RMT.0629	Time Based Separation	Introduction of the provisions for the implementation of time based based-separation that are consistent with RECAT	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	ADR Rules; 923/2012(SERA); Ground systems & constituents		RMT.0630	Airport safety nets	Introduction of the provision for the deployment of airport safety nets based on A-SMGCS and RWSL	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	1035/2011; Ground systems & constituents; 2150/2005; 691/2010; 923/2012		RMT.0631	Flexible airspace management and free routing	Introduction of the provisions to support the application FUA and free routes	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	Ground systems & constituents; 255/2010; 961/2010; 1035/2011		RMT.0632	EATM network management	Introduction of provisions to enable network collaborative management	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	1035/2011; Ground systems & constituents		RMT.0633	Extended AMAN	Introduction of provision for technical requirements in support of Extended AMAN	ATM/ADR		Opinion&decision	TBD	TBD	New task
PCP	Ground systems & constituents		RMT.0634	SWIM technology	Introduction of provisions for technical requirements for SWIM with respect to the PCP	ATM/ADR		Opinion&decision	TBD	TBD	New task

The aim of this Annex is to present candidate regulatory activities foreseen to support the European ATM Master Plan and the regulatory needs stemming from SESAR deployment. It is provided for informative purposes only and the tasks identified are subject to further regulatory impact analysis.
