OSD applicability to non-complex Summary

OSD
Complex

OSD non-
Complex

Applicability overview

- Syllabi for type training (FCD, MCSD) only when type rating (training)
 - Most small aircraft in class or group
- Simulator data: only when SIM is used in type training
- Data for CC only when pax > 19
- MMEL:
 - for non-complex aeroplanes generic MMEL in CS
 - TC applicant can confirm this generic MMEL is adequate
 - for sailplanes, VLA, LSA, balloons and small airships use concept of “required equipment” see GM to Part-21
 - No need for formal MMEL
