

The New Normal: Strategies for Safety Success

*Fiscally Challenging
Times*

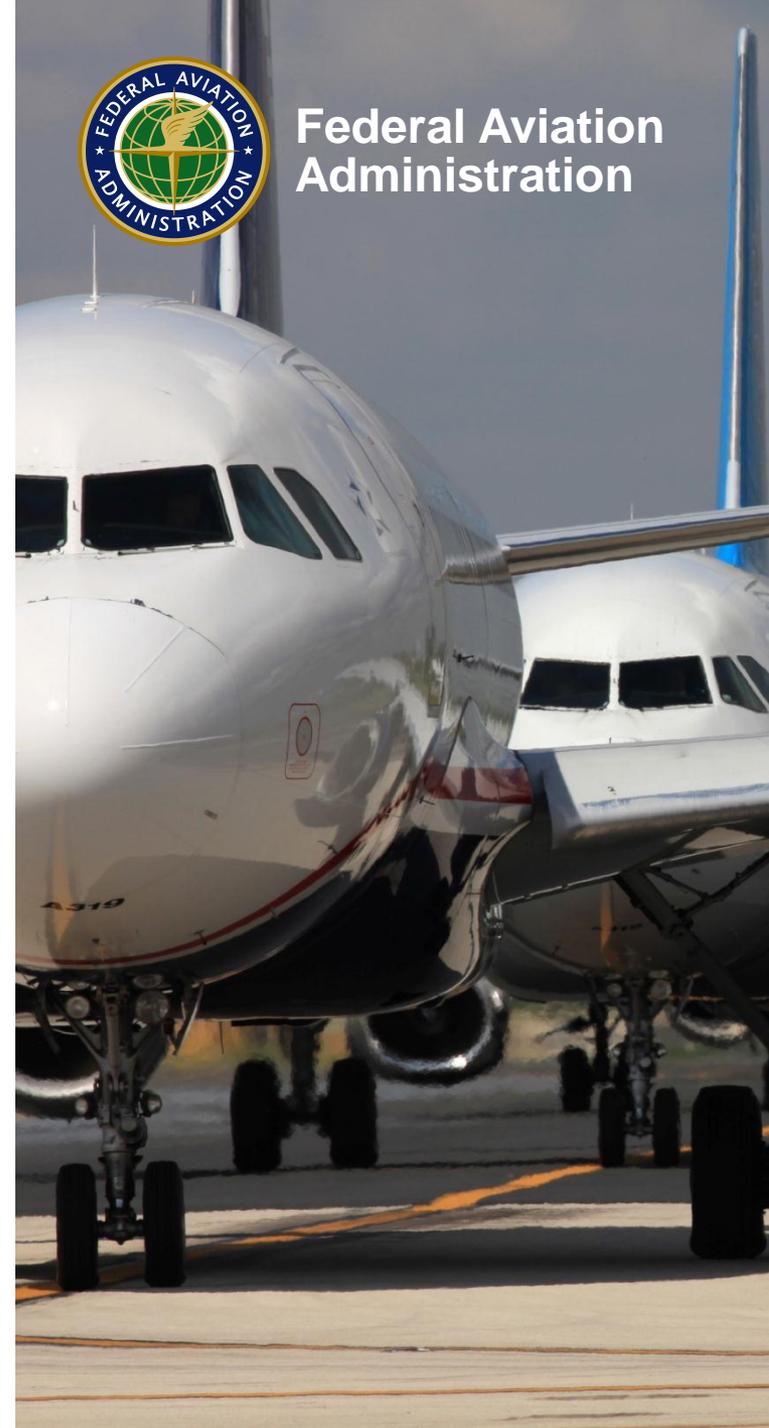

Presented to: 2013 EASA-FAA International
Aviation Safety Conference

By: John Hickey,
Deputy Associate Administrator for
Aviation Safety, FAA/AVS-2

Date: June 14, 2013
Paris

Federal Aviation
Administration

Global Economic Conditions

- **New Fiscal Reality**
- **Must stay the safety course**
 - Public expectations
 - Doing more, better, with less
 - Success through partnership
- **Look at how far we've come**
 - Stay the course to achieve the next level of safety
 - Let's look at some of those achievements

Priority Areas

- **Policy and Rulemaking Collaboration**
- **Information Sharing**
- **Safety Partnership**
 - Bilateral Agreements
 - Working Committees
 - Technical Groups
 - “Pilot” programs

**Leverages Resources
Builds on Efficiency
Sharing of Information
Global Expertise**

Global Initiatives

- **ICAO**
 - Safety Management Panel
 - Global Safety Information Exchange
 - Airworthiness Panel
 - 38th Assembly
- **Regional Aviation Safety Groups**
 - Working in partnership to address and reduce the global accident rate
 - Allow for data collection and analysis, standardization

Our New Normal...

Stronger Global Collaboration and Partnerships

- Information Sharing
- Risk Management
- Safety Enhancement for:

• Design

• Production

• Operations
