

Plenary Session B
Global Partnership: The Strategic
Vision
Tay Tiang Guan
14 June 2013

CAAS

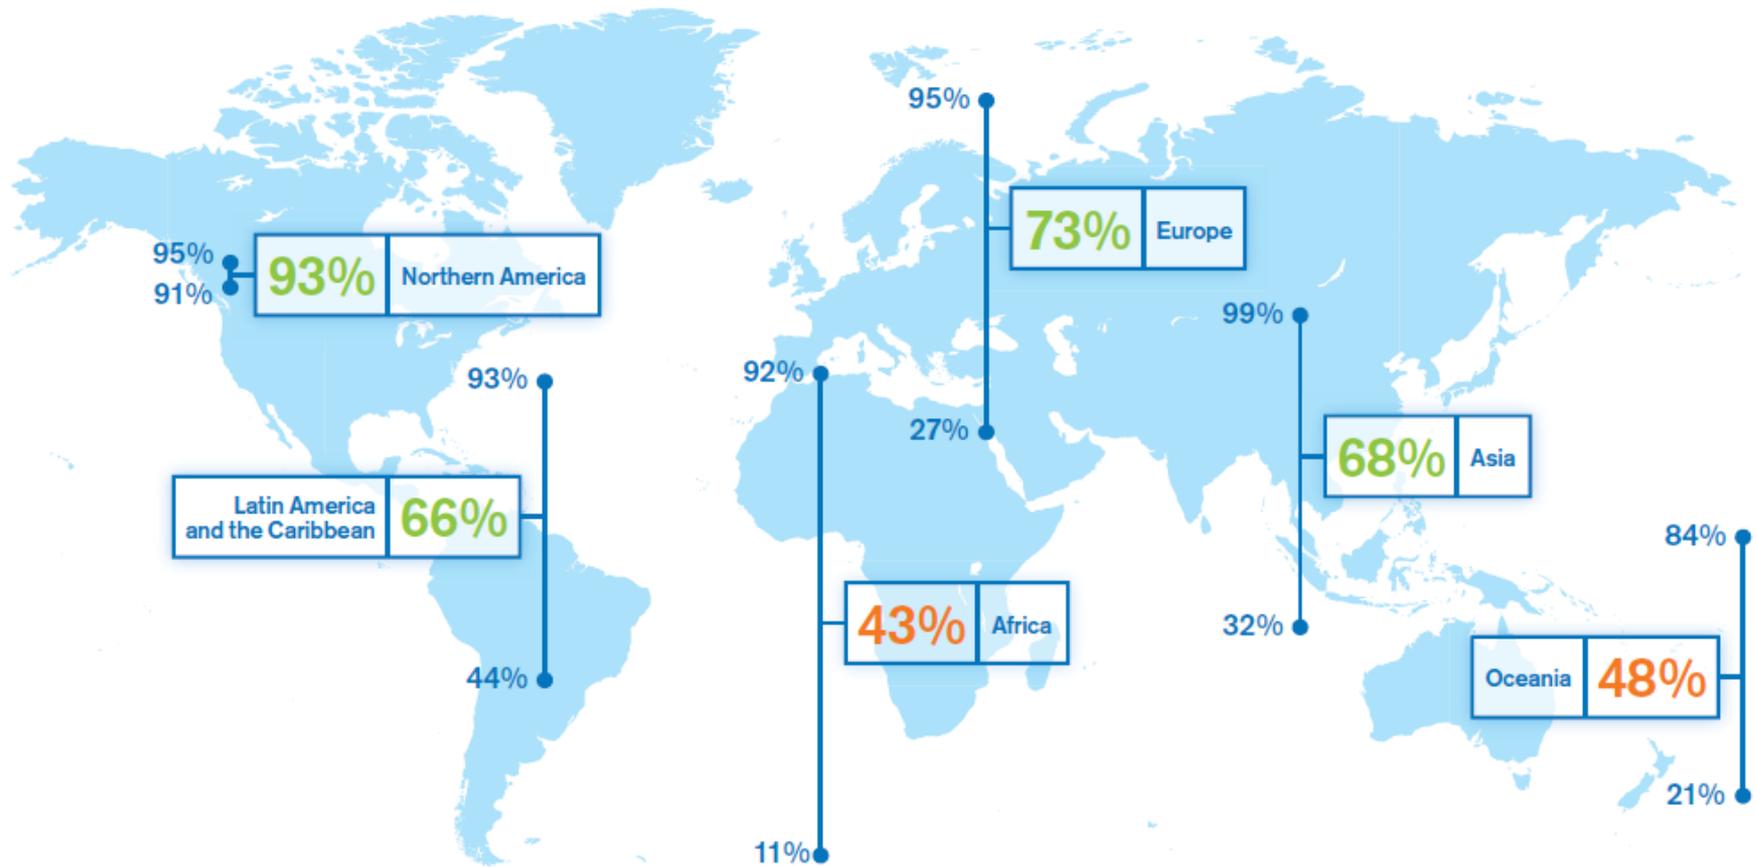

Civil Aviation Authority of Singapore

Asia-Pacific – still the fastest growing region

- By 2016, passenger traffic will represent 33% of the global total
- 10,000 new aircraft deliveries in the next 20 years

Source: IATA, Airbus

ICAO USOAP – Level of Effective Implementation

Source: ICAO

Characteristics of the Asia-Pacific Region

- Many States spanning a wide region
- Different levels of safety across the region
- States pre-occupied with managing growth and aviation development

Examples of Regional Collaboration in Safety

- Asia Pacific Regional Aviation Safety Group (RASG)
 - Supported by the Asia Pacific Regional Aviation Safety Team (APRAST), a sub-group of the RASG
- COSCAPs (S.E. Asia, N. Asia, S. Asia)
- ASEAN Air Transport Working Group
 - Aviation Safety Roadmap in support of ASEAN Single Aviation Market
- South East Asia Regional Initiative Forum (SEARIF)
- Bilateral Working Arrangements
