03. Oversight of Operators with activities in different Member States

1st workshop on the implementation of the
Air Ops Regulation (EU) No 965/2012

19 March 2014

Your safety is our mission.
easa.europa.eu

Introduction

ARO.GEN.200 (c) Management system

If operator is active in more than one Member State, competent authority shall establish procedures for participation in a mutual exchange of all necessary information and assistance with other competent authorities.

Incl. exchange on all findings raised and follow-up actions taken

ARO.GEN.300 (d) Oversight

Oversight of operators established in another Member State shall be determined on the basis of safety priorities, as well as past oversight activities

GMC1 ARO.GEN.300(d) Authority to prioritise towards those areas of greater safety concern through analysis of data on safety hazards and their consequences in operations.

ARO.GEN.350 authority transmits indication of findings to competent authority.

Introduction

ARO.GEN.300 (e) Oversight

Voluntary transfer of oversight tasks to the Member State(s) where the activity takes place.

Topics to be addressed

- Interoperability triggers co-operation amongst Member States to ensure oversight of pan-European operators.
- How can operators with different AOCs belonging to one single parent company align their procedures?
