**Subject: 10th EASA Rotorcraft Symposium - Call for papers**

Dear Sir or Madam,

The 10th EASA Rotorcraft Symposium is scheduled to be held at the new European Aviation Safety Agency's *Direktion* in Cologne, Germany on 6 and 7 December 2016.

This year's agenda will encompass diverse disciplines and attractive topics. The discussions will span from Initial and Continuing Airworthiness to Certification Standards, whereas the Agency is also proud to support research projects, and host discussions on LPV approaches, new Hoist designs, Crashworthiness, Survivability and Bird Strike.

I kindly invite you to submit a proposal for a presentation at the symposium. Please submit your proposal, consisting of a title plus an abstract of up to 300 words, **by 23 September 2016**. Papers are welcomed in the areas mentioned above, but also any other topic related to rotorcraft industry will be carefully reviewed for possible add-on to the agenda.

Following an internal review of the proposals, the Agency will promptly notify selected speakers who will need to provide their final paper not later than **11 November 2016**.

Detailed information on date, venue and programme of the Symposium will be made available on the [EASA Website](#) (Events).

Please forward your abstract and any further questions to Jean Marc SACAZES via e-mail at [jean-marc.sacazes@easa.europa.eu](mailto:jean-marc.sacazes@easa.europa.eu) or by phone at +49 221 89990 4185.

Yours faithfully,

Patrick KY
