English Version by David COCKBURN

Accident Analysis and Safety Report

- National Meeting for Regional Safety Correspondents
- Regional Meeting of Local Safety Corr.
- Safety Analysis and Report in Collaboration with French NAA & French Accident Investigation Board

REX (1/2)

Building a Safety Data Repository

REX = Occurrence Reporting (on a voluntary base):

- Data Entry by Reporter (on website)
- Data Processing & Analysis by FI (3 volunteers)
 - Interview of Reporter (when possible and agreed)
 - Anonymisation
 - Added Value by FI's (Comments)
- Public Access to Database and Comments
- 400 Occurrences/4 Years

Key Factors of Success of REX:

- User Friendly Data Entry (5 Questions/Prepared Answers)
- Easy Consultation (extract by theme)
- Committed Staff for Implementation (1x IT man and 3x FI)
- On-going Data Analysis (3x FI)
- Trust in Confidentiality
- Etc.
