SECTION A: KODIAK 100

A.I. General

1. Type/ Model/ Variant
   1.1 Type Kodiak 100 Series
   1.2 Model Kodiak 100
   1.3 Variant N/A

2. Airworthiness Category Normal

3. Manufacturer Kodiak Aircraft Company, Inc.
   (US Production Certificate 728 NM)

4. EASA Type Certification Application Date 18th March 2015

5. State of Design Authority Federal Aviation Administration (US)

6. State of Design Authority Type Certificate Date 30th May 2007

7. EASA Type Certification Date 6th April 2017

A.II. EASA Certification Basis

1. Reference Date for determining the applicable requirements 7th April 2005
   (FAA Application Date)

2. Airworthiness Requirements CS-23 Original Issue

3. Special Conditions
   − B-52 Human Factors - Integrated Avionics System
   − E-11 Cold Soaked Fuel
   − E-52 Turbine Engine Installation
   − F-52 Protection from effect of HIRF
   − F-54 Protection from the effects of lightning strike; indirect effects

4. Exemptions None

5. (Reserved) Deviations None

6. Equivalent Safety Findings None

7. Environmental Protection ICAO Annex 16, Volume 1 see EASA Type Certificate Data Sheet Noise ref TCDSN IM.A.632.

8. Operational Suitability Certification Basis
   8.1 Master Minimum Equipment List CS-GEN-MMEL Initial Issue
A.III. Technical Characteristics and Operational Limitations

1. Type Design Definition
   KODIAK 100 Master Drawing List (Quest report # 100-101-000) Rev.62 or later approved revisions
   Aircraft serial numbers 100-001 through 100-0034 must have Quest Service Notice SN-025 installed in order to allow operation at the 7,255 lb maximum takeoff weight.
   All serial numbers of KODIAK 100 aircraft must be equipped with Field Service Instruction FSI-148, Standby Battery System (or any approved design change deemed equivalent by EASA).

2. Description
   Kodiak 100A Basic Data (Doc. 101-000-010 Rev.01)

3. Equipment
   The basic required equipment as prescribed in the applicable airworthiness regulations (see Certification Basis) must be installed in the aircraft for airworthiness certification.
   Additional Equipment Necessary for Type Certification: The latest Approved Revision of the KODIAK 100 “Pilots Operating Handbook and FAA Approved Airplane Flight Manual.”

4. Dimensions
   Length: 10.42 m (34.2 ft)
   Span: 13.72 m (45.0 ft)
   Height: 4.48m (14.7 ft)

5. Engine
   5.1. Model
   Pratt and Whitney Canada, Inc. PT6A-34
   5.2 Type Certificate
   CA E-6 (Transport Canada)

6. Propeller
   6.1 Model
   Hartzell HC-E4N-3P(Y)/D9511FSB
   6.2 Type Certificate
   EASA.IM.P.133
   6.3 Number of blades
   4
   6.4 Diameter
   95" minimum, 96" maximum; no further tolerance permitted
   6.5 Sense of Rotation
   Right-hand rotation
   6.6 Static RPM Limits
   Stabilized ground operation prohibited from between 450 rpm and 1,050 rpm

   Pitch angle limits to be measured at 30” radial distance. See Propeller TC Data Sheet P10NE for additional details and limitations.
7. Fluids

7.1 Fuel

Primary Fuel: Jet A

Note that all fuels must conform to Pratt and Whitney Canada Specification CPW204

7.2 Oil

See Pratt and Whitney Canada Service Bulletin Number 1001 for approved oil.

Note: add weight of unusable oil to the certificated empty weight.

7.3 Coolant

N/A

8. Fluid capacities

9.1 Fuel

One 160 gallon (605,7 liters) tank in each wing at 83.4" (2,12 m) aft of datum; 157.5 gallons (596,2 l) usable, 2.5 gallons (9,5 l) unusable
(320 gallons/1211,4 liters total; 315 gallons/1192,4 l usable, 5 gallons/19l unusable)

Note: add weight of unusable fuel to the certificated empty weight.

9.2 Oil

13 qt (12,3 liters) total at 18.9" (0,48 m) forward of datum; 9 qt (8,5 l) drainable, 4 qt (3,8 l) undrainable

9.3 Coolant system capacity

N/A

9. Air Speeds

V_O: 143 KCAS (142 KIAS)
V_FE (10°): 139 KCAS (138 KIAS)
V_FE (20°): 120 KCAS (120 KIAS)
V_FE (35°): 108 KCAS (108 KIAS)
V_MO: 180 KCAS (182 KIAS)

10. Approved Operations Capability

Flight into known icing conditions allowed when the required equipment listed in the latest FAA approved revision of the KODIAK 100 POH/AFM “TKS Ice Protection System” supplement is installed; installation may have been accomplished when the airplane was produced (may have required system activation in accordance with Quest Service Notice SN-043), or may have been installed in accordance with
the latest FAA approved revision of Quest Field Service Instruction FSI-013.

Minimum Operating OAT -25°C for Serial Numbers 100-0001 thru 100-0017 without Quest Service Bulletin SB-016 compliance.

Minimum Operating OAT -55°C for Serial Numbers 100-0018 and above and Serial Numbers 100-0001 thru 100-0017 with Quest Service Bulletin SB-016 compliance.

11. Maximum Operating Altitude

- 4267m (14000 ft) without approved oxygen system installed.
- 7620m (25000 ft) with approved oxygen system installed.

12. Maximum Masses

<table>

See the latest FAA approved revision of the KODIAK 100 “Airplane Maintenance Manual”, or other approved data, for flap rigging instructions and setting Flaps up (0°) configuration.

16. Levelling Means

Place a level on the seat tracks in the aft cabin next to the cargo door forward post.

See the latest approved revision of the KODIAK 100 “Pilots Operating Handbook and FAA Approved Airplane Flight Manual” for additional details.

17. Minimum Flight Crew

1 pilot

18. Maximum Passenger Seating Capacity

Up to 9 seats total, including 1 seat located at 40” aft of datum and up to 8 additional seats located in accordance with latest approved revision of the KODIAK 100 “Pilots Operating Handbook and FAA Approved Airplane Flight Manual”

19. Baggage/ Cargo Compartments

As defined in latest approved revision of the KODIAK 100 “Pilots Operating Handbook and FAA Approved Airplane Flight Manual”.

**A.IV. Operating and Service Instructions**

1. Flight Manual  
   KODIAK 100 “Pilots Operating Handbook and FAA Approved Airplane Flight Manual” AM901.0 - Rev. 18 or later approved revision.  
   Including the KODIAK 100 POH/AFM Supplement AM901.107 “EASA CERTIFIED AIRPLANES” (at latest approved revision).

   KODIAK 100 “Airplane Maintenance Manual” AM902.0 - Rev. 22 or later approved revision.

   KODIAK 100 “Airplane Structural Repair Manual” AM907.0 - Rev. 00 or later approved revision

   Refer to the approved “Pilots Operating Handbook and FAA Approved Airplane Flight Manual”.

5. Illustrated Parts Catalogue  
   KODIAK 100 “Illustrated Parts Catalog” AM906.0 - Rev. 03 or later approved revision

**A.V. Operational Suitability Data (OSD)**

1. Master Minimum Equipment List (MMEL)  
   Document AM908.0 - Rev.00 or later approved revision
A.VI. Notes

Note 1. A current weight and balance report, including a list of equipment included in the certificated empty weight, and loading instructions when necessary must be provided for each aircraft at the time of original certification.

Note 2. The placards specified in the latest approved revision of the KODIAK 100 “Pilots Operating Handbook and FAA Approved Airplane Flight Manual” are required.

Note 3. The airplane must be subsequently maintained in accordance with the Instructions for Continued Airworthiness, and Airworthiness Limitations section, as contained in the latest approved revision of the KODIAK 100 “Airplane Maintenance Manual”, or other approved data.

Note 4. The airplane shall be manufactured in accordance with the latest approved revision of the KODIAK 100 “Master Drawing List”, or other approved data.

Note 5. Parachuting configuration and operations are not approved.

Note 6. (Reserved)

Note 7. Requirements for operations under Commission Regulation (EU) No965/2012 (as amended) have been identified in CRI O-02.

Note 8. The Kodiak 100 is eligible for SET-IMC operation according to Commission Regulation (EU) 2017/363 when the appropriate equipment and instruments required by the operating requirements (Commission Regulation (EU) No. 965/2012 as amended apply) are installed, approved and operating as defined by the approved Master Minimum Equipment List (MMEL) or Minimum Equipment List (MEL).
SECTION B: KODIAK 200 (COMMERCIALY KNOWN AS KODIAK “900”)

The marketing name for the model Kodiak 200 is the “Kodiak 900”. Some documents that apply to the Kodiak 200 model such as the Airplane flight manual and Airplane maintenance manual are labeled with the Kodiak 900 trade name. Documents that are entitled with Kodiak 900 are applicable to the Kodiak 200 model.

B.I. General

1. Type/ Model/ Variant
   1.1 Type           Kodiak 100 Series
   1.2 Model          Kodiak 200
