

Date: 21 Sept 2017 – 09h30 – 15h30

Location: Meeting room ‘Delvaux’, Artemis Square, CCI France Belgique
Avenue des Arts, 8 - B-1210 Bruxelles
Near metro station ‘Madou’

Introduction

As recalled during recent Horizon 2020 and ACARE events the theme of ‘In-flight icing’ for commercial air transport is recognized as a priority research area for collaborative projects involving aviation industries, authorities and research organisations. In addition establishing effective international cooperation for these projects is recommended.

Main Objectives

In order to support the development of research actions the main objectives of the workshop are:

- Share information on and status of current issues and proposed research activities in the field of ‘in-flight’ icing, reflect on previous international cooperation in this field
- Discuss options for establishing new cooperation and a possible joint approach for the development of research agreements under ACARE INCO

Targeted audience

Representatives of industry, research organisations, air operators, service providers, aviation authorities currently engaged in the development of EU research activities regarding ‘in-flight’ icing.

Registration: send an email with names of participants to organisers (contacts below)

Proposed agenda

Time	Topic	Discussion Leader
9:30	Welcome, Introduction and tour de table	Emmanuel, Guy
10:00	Where are we today? Overview of research themes under ‘in-flight icing’ Short recap from past projects and STORM project workshop of March 2017	Emmanuel
10:30 – 13:00	Proposed research activities: short overview <ul style="list-style-type: none"> - Scope and key objectives, - the foreseen coordinator(s), partners, needs for additional partners - expected cooperation with non-EU countries - overall duration, estimated volume of activities, including the ones performed outside EU. The duration of this overview is 2h30, including a coffee break. With a total of 10 proposed projects, each presentation would be limited to 10 minutes, leaving time for short questions and answers.	All participants Please inform us by 15.09 on your intention to present here

Time	Topic	Discussion Leader
13:00 – 13:45	Lunch	
13:45	Brief on the role of EASA and ACARE INCO, the platform for EU-US cooperation in the context of H2020	Emmanuel, Guy
14:00	Discussion on foreseen new cooperation and how to join approach the different countries? (all participants)	All participants
15:15 - 15:30	Wrap-up and conclusions
