

High Level Meeting Cybersecurity in Civil Aviation

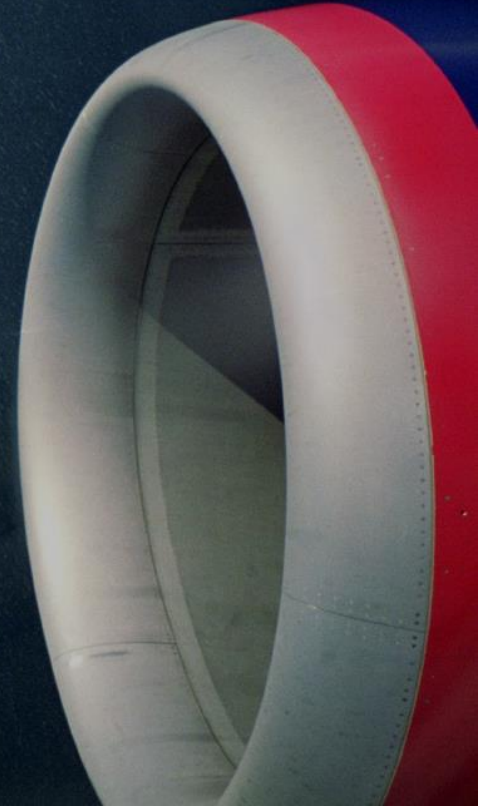

Rafael Schwartzman

Regional Vice President Europe

How important is this topic for airlines?

- **Cybersecurity is a CEO level issue**
- **Creating Cybersecurity culture**
- **Engaging with all industry players**

Challenges

- Growing automation implies growing cyber risks
- Accountability falls under multiple parties
- Sharing of information
 - Development and Integration of Cyber security centers

What are airlines doing about Cybersecurity?

- **Including cyber in their SMS**
 - Validating threats, vulnerabilities, likelihood, impacts, etc
- **Capacity building**
- **Creating specialized teams on Cybersecurity**
- **Monitoring the regulatory landscape**
- **Participating in the industry forums**

Doing things right, doing the right things

Coordination & avoidance of regulatory duplications

Measures based on SMS

Aviation Specific approach

Proportionality

Involve all industry players

Thank you
