4. Exemptions

a) Derogation granted by DGAC for FAR 23-177-a-2:
   Existence of a slight roll instability in aircraft configuration corresponding to go-around at landing.
   Substantiation: Taking into account the attention brought by a pilot to aileron control in such a flight phase, the derogation has been granted.

b) Derogation granted by DGAC for FAR 23-1401-f:
   LABINAL 37-72-11 anti-collision light intensity with red glass optic lens is inferior to that required by regulation.

Aircraft Maintenance Manual (AMM) must be at Revision 19 or later revision (incl. Chapter 4 Airworthiness Limitations), plus temporary revisions pending the next updated version.

N/A

N/A

5. Illustrated Parts Catalogue

Illustrated Parts Catalogue (IPC) must be at Revision 17 or later revision.

6. Service Information and Service Bulletins

Refer to our website

A.V. Notes

1. Approved Noise Levels in accordance with:
   a) for TB10 aircraft at a maximum takeoff weight of 1150 kg (2535 lbs) and a maximum continuous power of 2700 RPM:
      - French Decree dated April 15, 1977: 71.5 d B (A) for a limit of 75.3 d B (A),
      - ICAO, Chapter X, Appendix 6, Annex 16: 81.0 d B (A) for a limit of 85.2 d B (A).
   b) for TB10 aircraft equipped with optional equipment A887 "Low noise exhaust" – see AFM, Section 9, Supplement 28 - at a maximum takeoff weight of 1150 kg (2535 lbs) and a maximum continuous power of 2700 RPM:
      - ICAO, Chapter X, Appendix 6, Annex 16: 77.9 d B (A) for a limit of 85.2 d B (A).

2. For TB10 aircraft equipped with option D852 "Noise reduction for Germany: label Blue Angel"
   - Takeoff: 2700 RPM (135 kW)
   - Max continuous: 2450 RPM

3. Avoid continuous operation when RPM between 2000 and 2250.

5. The empty weight must include unusable fuel weight of 4.3 kg (9.48 lbs) at 1.075 m (42.3 inches) and oil full quantity [7.2 kg (15.9 lbs) at – 0.605 m (- 23.8 inches)].

6. All optional equipment requiring an AFM Supplement are contained in AFM, Section 9.

7. Forward limit: 1.144 m (45 inches) up to S/N 947
   - 1.083 m (42.6 inches) from S/N 948

8. TB10 aircraft equipped with modification MOD.118 or MOD.120 (Trailing arm main landing gear).

9. Smokers authorized (ashtrays on board)

4. Exemptions

a) Derogation granted by DGAC for FAR 23-177-a-2:
   Existence of a slight roll instability in aircraft configuration corresponding to go-around at landing.
   Substantiation: Taking into account the attention brought by a pilot to aileron control in such a flight phase, the derogation has been granted.

b) Derogation granted by DGAC for FAR 23-1401-f:
   LABINAL 37-72-11 anti-collision light intensity with red glass optic lens is inferior to that required by regulation.
5. (Reserved) Deviations

5. Engine

| 5.1. Model | 1 Textron Lycoming O-320-D2A (fixed pitch propeller)  
| or | 1 Textron Lycoming O-320-D1A (variable pitch propeller)  
| 5.2 Type Certificate | FAA TCDS E-274 rev20 and later revision  
| 5.3 Limitations | Max. take-off and continuous power*: 2700 RPM (120 kW)  
|               | Max. Cylinder Head Temperature: 260°C (500°F)  
|               | (*) See Note 2  
| Oil: | Normal pressure: From 4.2 to 6.2 bars (61 to 90 psi)  

(*) See Note 2
Minimum pressure: 1.7 bar (115 psi)
Max. Temperature: 118°C (244°F)

| Fuel: | Min. fuel pressure: 0.035 bar (0.51 psi) |

6. Load factors (Limit at maximum permissible weight)

6.1 Normal Category
- Flaps retracted: \( n = +3.8 - 1.5 \)
- Flaps extended: \( n = +2 - 0 \)

6.2 Utility Category
- Flaps retracted: \( n = +4.4 - 1.8 \)
- Flaps extended: \( n = +2 - 0 \)

7. Propeller

7.1 Up to aircraft S/N 878, except S/N 765:
- a) Model: 1 SENSENICH 74DM6 S8 061
- b) Type Certificate: FAA TCDS P886 rev18 and later revision
- c) Number of blades: 2
- d) Diameter
  - Maximum: 1.88 m (74 inches)
  - Minimum: 1.83 m (72 inches)
- e) Rating during ground run, full throttle, at sea level:
  - Minimum: 2200 RPM
  - Maximum: 2400 RPM
- f) Setting of propeller blades: N/A
- g) Governor: N/A

OR
- a)bis Model: 1 HARTZELL HC-C2YL-1BF/F 7663 A-4 (optional equipment 0575)*
  - (*) see Note 1 e)
- b)bis Type Certificate: FAA TCDS P920 rev30 and later revision
- c)bis Number of blades: 2
- d)bis Diameter
  - Maximum: 1.83 m (72 inches)
  - Minimum: 1.78 m (70 inches)
- e)bis Rating during ground run, full throttle, at sea level: N/A
- f)bis Setting of propeller blades at 0.686 m (27 inches):
  - Low pitch setting: 11°
  - High pitch setting: 26°06'
- g)bis Governor: HARTZELL Type F4-27
7.2 From aircraft S/N 879, plus S/N 765 (modification No. 72):

B.IV. Operating and Service Instructions

1. Flight Manual
   a) Up to aircraft S/N 730: AFM Edition 0 Revision 1 and following revisions [see Note 1 a)]
   b) From aircraft S/N 731 to 878, except S/N 765: AFM Edition 1 must be at Revision 1 or later revision [see Note 1 a)]
   c) From aircraft S/N 879 to 947, plus S/N 765: AFM Edition 2 must be at Revision 1 or later revision [see Note 1 a)]
   d) From aircraft S/N 948, aircraft not equipped with option D840 or D856 (nor equipped with option D851): AFM Edition 3 must be at Revision 2 or later revision [see Note 1 a)]
   e) From aircraft S/N 948 equipped with option D840: AFM Edition 3A (DGAC approved French and German versions and LBA approved German version) must be at Revision 4 or later revision [see Notes 1 b) and 2)]
   f) From aircraft S/N 948 equipped with option D851: AFM Edition 3B (LBA approved German version) must be at Revision 0 or later revision (see Note 2 and Section 6, VI.2 - Note 1)
   g) From aircraft S/N 948 equipped with option D856: AFM Edition 3C (DGAC approved French and German versions) must be at Revision 0 or later revision [see Notes 1 c) and 6)]
   h) From aircraft S/N 948 equipped with modification No. 139: AFM Edition 4 (DGAC approved French and English versions) must be at Revision 1 or later revision [see Note 1 f)]

   Aircraft Maintenance Manual (AMM) must be at Revision 19 or later revision (incl. Chapter 4 Airworthiness Limitations), plus temporary revisions pending the next updated version.

   N/A

   N/A

5. Illustrated Parts Catalogue
   Illustrated Parts Catalogue (IPC) must be at Revision 17 or later revision.

6. Service Information and Service Bulletins
   Refer to our website

B.V. Notes

1. Approved Noise Levels in accordance with:
   a) for TB9 aircraft at a maximum takeoff weight of 1060 kg (2337 lbs) and a maximum continuous power of 2700 RPM:
      French Decrees dated April 15, 1977 and February 19, 1987:
      Propellers: 72.5 d B (A) for a limit of 74.1 d B (A).
      SENSENICH 74 DM6 S8 061
      SENSENICH 74 DM6 S8 054
b) for TB9 aircraft equipped with optional equipment D840 (From S/N 948) at a maximum takeoff weight of 1060 kg (2337 lbs) and a maximum continuous power of 2600 RPM:
French Decree dated February 19, 1987  68.8 d B (A) for a limit of 74.1 d B (A).
NOTE: These values are also valid for TB9 aircraft from S/N 897 to 947, plus S/N 765 equipped with optional equipment D840 and are given in the AFM Supplement 19 (DGAC approved French and German versions).

c) for TB9 aircraft equipped with optional equipment D856 (From S/N 948) at a maximum takeoff weight of 955 kg (2105 lbs) and a maximum continuous power of 2700 RPM:
ICAO, Chapter X, Appendix 6, Annex 16  74.9 d B (A) for a limit of 82.6 d B (A).
NOTE: The associated AFM is also valid for Swiss registered TB9 aircraft with the following values referring to the Swiss Edict dated May 25, 1990, Appendix, Chapter 241b:  71.9 d B (A)

d) for TB9 aircraft equipped with optional equipment A890 "Low noise exhaust" – see AFM, Section 9, Supplement 27 - at a maximum takeoff weight of 1060 kg (2337 lbs) and a maximum continuous power of 2645 RPM:
ICAO, Chapter X, Appendix 6, Annex 16  78.5 d B (A) for a limit of 84.0 d B (A).

e) for TB9 aircraft equipped with optional equipment 0575 "HARTZELL variable pitch propeller" – see AFM, Section 9, Supplement 6 - at a maximum continuous power of 2700 RPM:
French Decree dated April 15, 1977  70.8 d B (A) for a limit of 74.1 d B (A).
Propeller: HARTZELL HC-C2YL-1BF/F 7663 A-4

f) for TB9 aircraft equipped with modification No. 139 (trade name TB9 "SPRINT") at a maximum continuous power of 2700 RPM:
ICAO, Chapter X, Appendix 6, Annex 16  78.9 d B (A) for a limit of 84.0 d B (A),
FAR PART 36 Appendix G  75.8 d B (A) for a limit of 79.1 d B (A).
Propeller: SENSENICH 74 DM6 S8 058

2. For TB9 aircraft equipped with option D840 "Noise special limitations" [AFM Paragraph B.IV 1. e)]
   - Takeoff and max. continuous  2600 RPM (116 kW)

For TB9 aircraft equipped with option D851 "Noise reduction for Germany: label Blue Angel" [AFM Paragraph B.IV 1. f)]
   - Takeoff  2600 RPM (116 kW)
   - Max. continuous  2550 RPM

3. Maximum weight of the 3 rear passengers: 175 kg (386 lbs).

4. The empty weight must include unusable fuel weight of 4.3 kg (9.48 lbs) at 1.075 m (42.3 inches) and oil full quantity [7.2 kg (15.9 lbs) at – 0.605 m (- 23.8 inches)].

5. All optional equipment requiring an AFM Supplement are contained in AFM, Section 9

6. For TB9 aircraft equipped with option D856 "Noise special limitations" [AFM Paragraph B.IV g)]
   - Max. weight  955 kg (2105 lbs)
   - Maximum Rear Passenger Seating Capacity: 2 seats at 2.035 m (80.1 inches) with a maximum weight of:
      Normal category:  120 kg (265 lbs)
      Utility category:  100 kg (220 lbs)
- Cargo version (without rear bench):
  Max. weight 120 kg (265 lbs) at station 2.000 m (78.7 inches)

7. TB9 aircraft equipped with modification MOD.119 or MOD.121 (Trailing arm main landing gear).
8. Smokers authorized (ashtrays on board).

| d) Diameter       | Maximum: 2.03 m (80 inches)  
                        Minimum: 1.98 m (78 inches) |
| e) Setting at 0.762 m (30 inches): | Low pitch setting: 15°  
                        High pitch setting: 31° |
| f) Governor       | WOODWARD Type E 210681  
                        or M 210681  
                        or C 210761  
                        or F 210761 |
| g) Sense of Rotation | Propeller rotates Clockwise in view of flight direction |

7.2 Three-blade propeller (option OP10 61001) [See Notes 1 e) and 3]

| a) Model or | 1 HARTZELL HC-C3YR-1RF/F 7693 F  
                        1 HARTZELL HC-C3YR-1RF/F 7693 FB |
| b) Type Certificate | FAA TCDS P25EA Rev22 and later revision |
| c) Number of blades | 3 |
| d) Diameter       | Maximum: 1.98 m (78 inches)  
                        Minimum: 1.93 m (76 inches) |
| e) Setting at 0.762 m (30 inches): | Low pitch setting: 13°  
                        High pitch setting: 31° |
| f) Governor:      | WOODWARD Type E 210681  
                        or M 210681  
                        or C 210761  
                        or F 210761 |
| g) Sense of Rotation | Propeller rotates Clockwise in view of flight direction |

8. Fluids

8.1 Fuel

100 minimum aviation grade gasoline  
or AVGAS 100 LL
8.2 Oil

Oils conforming to spec. MIL-L-6082 / MIL-L-22851
For more details see AFM, Section 1

8.3 Coolant

N/A

9. Fluid capacities

9.1 Fuel

Two structural wing Tanks:
Total: 336 liters (88.8 US Gal) [2 x 168 l (44.4 US Gal)]
Usable: 326 liters (86.2 US Gal) [2 x 163 l (43 US Gal)]
Unusable: 10 liters (2.6 US Gal)

9.2 Oil

(Engine built-in tank)
Maximum: 11.3 liters (12 qts) [at – 0.600 m (- 23.6 inches)]
Usable: 8.9 liters (9.4 qts) [at – 0.600 m (-23.6 inches)]
Minimum: 5.7 liters (6 qts)

9.3 Coolant system capacity

N/A

10. Air Speeds (Indicated Airspeed unless otherwise specified)

10.1 Up to S/N 587 not equipped with modification No. 50 - Maximum takeoff and landing weight: 1335 kg (2943 lbs):

<table>
<thead>
<tr>
<th>Speed Category</th>
<th>Value</th>

### 11. Flight Envelope
Refer to Aircraft Flight Manual

### 12. Approved Operations Capability
Day and Night VFR: see AFM, Section 9
Day & Night IFR: see AFM, Section 9
Flight into known icing conditions is prohibited

### 13. Maximum Masses

#### 13.1 Aircraft not equipped with modification No. 50:
Takeoff and landing: 1335 kg (2943 lbs)

#### 13.2 From S/N 588, as well as aircraft equipped with modification No. 50, up to S/N 878, except S/N 823 thru S/N 849:
Take-off: 1400 kg (3086 lbs)
Landing: 1335 kg (2943 lbs)

#### 13.3 From S/N 879, plus S/N 823 thru S/N 849:
Takeoff and landing: 1400 kg (3086 lbs)
13.4 Fuel

| Maximum fuel weight: | 235 kg (518 lbs) at 1.085 m (42.7 inches) (without unusable fuel) |

13.4 Empty weight (see Note 5)

14. Centre of Gravity Range

14.1 Up to S/N 587 not equipped with modification No. 50 - Maximum takeoff and landing weight: 1335 kg (2943 lbs):

| Forward limit: | 1.080 m (42.6 inches) aft of datum at 1335 kg (2943 lbs) |
|               | 0.961 m (38 inches) aft of datum at 1200 kg (2646 lbs) |
|               | 0.937 m (37 inches) aft of datum at 900 kg (1984 lbs) |
|               | or less |
|               | Straight line variation between points given. |

14.2 Aircraft equipped with modification No. 50 from S/N 1 thru 587 included:

| Forward limit: | 1.080 m (42.6 inches) aft of datum from 1335 kg (2943 lbs) to 1400 kg (3086 lbs) |
|               | 0.961 m (38 inches) aft of datum at 1200 kg (2646 lbs) |
|               | 0.937 m (37 inches) aft of datum at 900 kg (1984 lbs) |
|               | or less |
|               | Straight line variation between points given. |

14.3 From S/N 588 included:

| Forward limit: | 1.071 m (42 inches) aft of datum at 1400 kg (3086 lbs) |
|               | 0.949 m (37 inches) aft of datum at 1250 kg (2756 lbs) |
|               | 0.913 m (36 inches) aft of datum at 1000 kg (2205 lbs) |
|               | or less |
|               | Straight line variation between points given. |

14.4 Rear limit: 1.205 m (47 inches) aft of datum at all weights

15. Datum

Front face of firewall

16. Control surface deflections

a) Stabilizer (angles reference: fuselage upper spar)

| - nose-up attitude | - 16° ± 1° |
| - nose-down attitude | + 3° ± 1° |
### b) Stabilizer tab (Angles reference: stabilizer chord)

<table>
<thead>
<tr>
<th>With stabilizer in full nose-up attitude</th>

<tr>
<td>2 – From aircraft S/N 588, plus those equipped with modification No. 50</td>
</tr>
<tr>
<td>- nose-up attitude tab stop</td>
</tr>
<tr>
<td>- nose-down attitude tab stop</td>
</tr>
</tbody>
</table>

c) Ailerons (Angles reference: wing chord)

| - upward                      | 15° ± 1.5° |
| - downward                    | 15° ± 1.5° |

d) Rudder (angles reference: fin chord)

| - left and right              | 25° ± 2° |

e) Rudder trim (angles reference: control surface chord)

| - turn to the left            | -10° ± 2° |
| - turn to the right           | +25° ± 2° |

e) Flaps (Angles reference: wing chord)

| - full flaps                  | 40° - 1° + 0.5° |

### 17. Levelling Means

Upper fuselage spar

### 18. Minimum Flight Crew

1 (Pilot) at station 1.155 m (45 inches)

### 19. Maximum Passenger Seating Capacity

4

one seat at R.H. station 1.155 m (45 inches)
two or three seats according to commercial arrangement at station 2.035 m (80 inches) (see Note 4)

### 20. Baggage/ Cargo Compartments

#### 20.1 Behind Rear Bench

- **a)** Up to aircraft S/N 399, plus S/N 413
  
  Maximum weight: 50 kg (110 lbs) at 2.600 m (102 inches)

- **b)** From aircraft S/N 400, except S/N 413
  
  Maximum weight: 65 kg (143 lbs) at 2.600 m (102 inches)

#### 20.2 Cargo version (without rear bench)

Maximum weight: 260 kg (573 lbs) at 1.900 m (74.8 inches)
21. Wheels and Tyres

Nose Wheel Size: 5.00-5
Nose Wheel Tyre Size: 5.00-5 PR
Main landing gear track: 2.17 m (85 inches)
Main Wheel Size: 6.00-6
Main Wheel Tyre Size: 15 x 6.00-6 PR

22. Special equipment

Stall warning device
Option No. A888 "Low noise exhaust" [see Note 1 d)]

C.IV. Operating and Service Instructions

1. Flight Manual
   a) From S/N 1 to S/N 587 if aircraft not equipped with kit No. 9118: AFM Edition 3 must be at Revision 0 or later revision [see Note 1 a)]
   b) From S/N 588 to S/N 730 and from S/N 1 to S/N 587 if aircraft equipped with kit No. 9118: AFM Edition 4 must be at Revision 0 or later revision [see Note 1 b)]
   c) From S/N 731 to S/N 878, except from S/N 823 to S/N 849: AFM Edition 0 must be at Revision 2 or later revision [see Note 1 b)]
   d) From S/N 879 to S/N 947, except S/N 888: AFM Edition 1 must be at Revision 1 or later revision [see Note 1 b)].
   e) From S/N 948, plus from S/N 823 to S/N 849 and S/N 888: AFM Edition 2 must be at Revision 11 or later revision [see Note 1 c)].

   Aircraft Maintenance Manual (AMM) must be at Revision 19 or later revision (incl. Chapter 4 Airworthiness Limitations), plus temporary revisions pending the next updated version.

   N/A

   N/A

5. Illustrated Parts Catalogue
   Illustrated Parts Catalogue (IPC) must be at Revision 17 or later revision.

6. Service Information and Service Bulletins
   Refer to our website
C.V. Notes

1. Approved Noise Levels in accordance with:
   a) for TB20 aircraft at a maximum takeoff weight of 1335 kg (2943 lbs) and a maximum continuous power of 2575 RPM:
      French Decree dated April 3rd, 1980 72.9 d B (A) for a limit of 77.8 d B (A)
   b) for TB20 aircraft at a maximum takeoff weight of 1400 kg (3086 lbs) and a maximum continuous power of 2575 RPM:
      French Decree dated April 3rd, 1980 74 d B (A) for a limit of 78.7 d B (A)
      ICAO, Chapter X, Appendix 6, Annex 16 83.6 d B (A) for a limit of 88 d B (A).
   c) for TB20 aircraft equipped with optional equipment A888 "Low noise exhaust" – see AFM, Section 9, Supplement 29 - at a maximum takeoff weight of 1400 kg (3086 lbs) and a maximum continuous power of 2575 RPM:
      ICAO, Chapter X, Appendix 6, Annex 16 83.5 d B (A) for a limit of 88 d B (A).
   d) for TB20 aircraft equipped with optional equipment OPT10 77001A "Réduction de bruit (2500 tr/mn)" – see AFM, Section 9, Supplement 42 - at a maximum takeoff weight of 1400 kg (3086 lbs) and a maximum continuous power of 2500 RPM:
      ICAO, Chapter X, Appendix 6, Annex 16 82.8 d B (A) for a limit of 88 d B (A).
      NOTE: The Supplement 42 is also valid for Swiss registered TB20 aircraft with the following values referring to the Swiss Edict dated May 25, 1990, Appendice, Chapter 241b: 79.8 d B (A) for a limit of 80.3 d B (A).
   e) for TB20 aircraft equipped with optional equipment OPT10 61001 "Three-blade Propeller" – see AFM, Section 9, Supplement 45 - at a maximum takeoff weight of 1400 kg (3086 lbs) and a maximum continuous power of 2500 RPM:
      ICAO, Chapter X, Appendix 6, Annex 16 82.5 d B (A) for a limit of 88 d B (A),
      FAR PART 36, Appendix G 78.6 d B (A) for a limit of 83.7 d B (A).

2. For TB20 aircraft equipped with option OPT10 77001A "Réduction de bruit (2500 tr/mn)":
   - Takeoff and max continuous 2500 RPM (174 kW)

3. For TB20 aircraft equipped with option OPT10 61001 "Three-blade Propeller", a new propeller cone is installed [Model A-2295-3(P)] – see AFM, Section 9, Supplement 45.

4. Maximum weight of the 3 rear passengers: 231 kg (509 lbs).

5. The empty weight must include unusable fuel weight of 7.2 kg (15.9 lbs) at 1.085 m (42.7 inches) and oil full quantity [11.3 kg (24.9 lbs) at – 0.600 m (- 23.6 inches)].

6. All optional equipment requiring an AFM Supplement are contained in AFM, Section 9

7. This engine can only be installed on 28 VDC TB20 aircraft that is to say from S/N 948, plus S/N 823 to S/N 849 and S/N 888.

8. Smokers authorized (ashtrays on board).

D.V. Notes

1. Approved Noise Levels in accordance with:
   a) for TB21 aircraft at a maximum takeoff weight of 1400 kg (3086 lbs) and a maximum
      continuous power of 2575 RPM:
      French Decree dated April 3rd, 1980 76.1 d B (A) for a limit of 78.7 d B (A)
   b) for TB21 aircraft equipped with optional equipment OPT10 61001 "Three-blade Propeller" –
      see AFM, Section 9, Supplement 45 - at a maximum takeoff weight of 1400 kg (3086 lbs) and a
      maximum continuous power of 2575 RPM:
      ICAO, Chapter X, Appendix 6, Annex 16 81.8 d B (A) for a limit of 88 d B (A),
      FAR PART 36, Appendix G 78.0 d B (A) for a limit of 83.7 d B (A).

2. For TB21 aircraft equipped with option OPT10 61001 "Three-blade Propeller", a new propeller cone is
   installed [Model A-2295-3(P)] – see AFM, Section 9, Supplement 45.

3. Maximum weight of the 3 rear passengers: 231 kg (509 lbs).

4. The empty weight must include unusable fuel weight of 7.2 kg (15.9 lbs) at 1.085 m (42.7 inches) and
   oil full quantity [11.3 kg (24.9 lbs) at – 0.600 m (~23.6 inches)].

5. All optional equipment requiring an AFM Supplement are contained in AFM, Section 9

6. Smokers authorized (ashtrays on board).

---

**E.V. Notes**

1. Approved Noise Levels in accordance with:
   - for TB200 aircraft at a maximum takeoff weight of 1150 kg (2535 lbs) and a maximum continuous power of 2700 RPM:
     - ICAO, Chapter X, Appendix 6, Annex 16 80.6 dB (A) for a limit of 85.2 dB (A).
   - For TB200 aircraft equipped with option D849 "Special noise limitation":
     - Takeoff 2700 RPM (149 kW) (engine rated at 200 HP)
     - Max continuous 2600 RPM (144 kW)
   - For TB200 aircraft equipped with option D853 "Noise reduction for Germany : label Blue Angel":
     - Takeoff 2700 RPM (149 kW) (engine rated at 200 HP)
     - Max continuous 2500 RPM

3. The empty weight must include unusable fuel weight of 4.3 kg (9.48 lbs) at 1.075 m (42.3 inches) and oil full quantity [7.2 kg (15.9 lbs) at 0.605 m (-23.8 inches)].

4. All optional equipment requiring an AFM Supplement are contained in AFM, Section 9.

5. TB200 aircraft equipped with modification MOD.118 or MOD.120 (Trailing arm main landing gear).

6. Smokers authorized (ashtrays on board).
SECTION F  GENERAL NOTES

F.I.  Operating limitations

1. TB airplanes are certified in the Normal category (and Utility category for TB10 and TB9). In all cases spins are prohibited.

2. The limitations of use, indicated limit airspeeds marked on airspeed indicator, loading instructions, instruction and limitation plates are given in the approved Flight Manual.

3. TB airplanes are approved for day and night operations in the following conditions when the appropriate equipments, instruments required by the airworthiness and operational regulations are approved, installed and operative:
   - instrument and visual flight,
   - flight into icing conditions prohibited,
   - flight into icing conditions only with option n° 687 for TB20 and TB21.

F.II.  General

1. No noise limitations are mentioned in the TB LBA approved German versions AFM, as well as Supplements to AFM. Refer to rules in force in the German Federal Republic.
