RMT.0599 Review of ORO.FC Evidence-Based Training

Francisco Arenas – Aircrew & Senior Air Operations Regulations Officer.

2019

Your safety is our mission.

An agency of the European Union 

- Why the regulator introduced EBT?
 - EBT implementation phases.
- - DATA in EBT – Lawyers of data.
- - Introduction: Building blocks for EBT implementation
 - Competencies
 - Instructors
 - EBT programme
- Detailed presentation of IATA – Building blocks – Yann Renier.

Why EASA introduced EBT for Recurrent training?

- ▶ Accidents/incidents investigations show that pilots had a valid LPC at the time of the accident.
 - ▶ We need to improve – Reduce the wholes
- ▶ One of the contributing factors in most of the accidents nowadays is deficiencies in NON-TECH competencies
 - ▶ More than 50 % of fatal aircraft accidents worldwide accidents have a causal factor action of the flight crew
 - ▶ flight crew handling skills were a factor in 14 %
 - ▶ non-technical skills were a factor in more than twice (32 %)

Source: (UK, CAA)

More details of the reasons to move to EBT

- Traditional recurrent training
 - has not kept up with development and new challenges
 - does not reflect the operational risks of today's technology and environment
- Improve efficiency and effectiveness.
- There is the need for a data driven training system
 - Meaningful data! – standardise training data collection.
 - Note: ensuring just culture and data protection.

Evidence-Based training

EVIDENCE BASED

EBT: 3 layers of DATA

1. Regulator: accidents, studies, surveys,...etc.
 - Data report for Evidence-based training (IATA/ICAO/EASA...etc.).
2. Operator: operators operational data + training data
 - Recurrent assessment and training programme.
3. Instructor: assessment of crew competencies and behaviour indicators
 - Tailored training
 - Additional training.

World wide
DATA report

Generic program:
Training topics frequency
A,B,C (6months,1,3 years).

Operator's EBT
program
(airline specific)

Operator's
data (training,
SMS etc)

Evaluation
FSTD session

Training
adapted to a
particular crew

Building blocks. EBT components
