European Union Aviation Safety Agency

FAQ n.105003

FAQs:

SEPIAC, Supplemental Type Certificates

Question:

Sepiac is not used or misused by a lot of EASA PCM and experts. Today we have to use both Sepiac and e-mail. It is really inefficient and time consuming!

Answer:

We can work to improve the platform, provide support and information to all the users… but unfortunately not make it mandatory for people to use the tool in a certain way.
