European Union Aviation Safety Agency

FAQ n.108909

FAQs:

B - Fees for the Certification of Products, Fees & Charges — FAQ

Question:

B.6 - How are applications for Certification Support for Validation (CSV) charged?

Answer:

A flat charge applies for CSV activities in accordance with Table 5 of regulation (EU) 2025/2347, the charge is levied per application.

The applicable charge is determined by service package, where ‘Small’ refers to applications that are handled without technical involvement, ‘Large’ refers to the validation support applicable to Large Aeroplanes, Large Rotorcraft and Turbine Engines, and ‘Medium’ refers to the validation support applicable to other product categories as well as parts and non-installed equipment.

Where EASA determines that the effort required will significantly exceed the predefined service packages, technical assistance/support related to compliance finding activities and validation support will be charged as individual service (i.e. by work hours).
