European Union Aviation Safety Agency

FAQ n.115370

FAQs:

Airspace Usage requirements – DLS/CPDLC (controller-pilot data link communication), Airspace Usage requirements, Regulations

Question:

How should I reflect the CPDLC exempted status in the flight plan?

Answer:

The operator should declare its CPDLC exempt status when filling the flight plan by including letter “Z” in item 10 and the indicator “DAT/CPDLCX” in item 18 of each flight plan.

For further details on how to reflect the CPDLC exempt status in the flight plan please check the EASA SIB 2020-03.
