

FAQs:

Once in the air, Provisions applicable to both 'open' and 'specific' category, Drones (UAS), Regulations

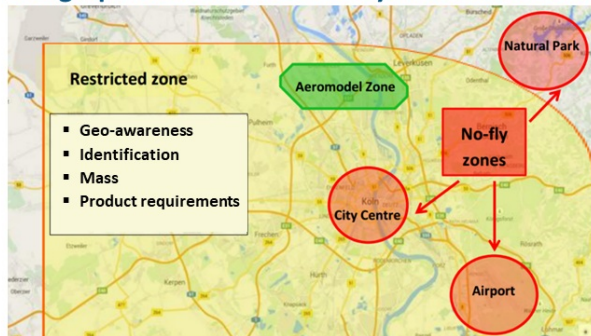

Question:

Can I fly my drone anywhere I want to?

Answer:

Flexibility for Member States

Geographical zones defined by Member States

Geo-awareness on drones to support remote pilots

Each EASA Member State will

determine drone geographical zones, which are areas where drones may not fly (e.g. national parks, city centres or near airports) or may fly only under certain conditions, or where they need a flight authorisation. Therefore, it is important for you to consult your National Aviation Authority to check where you can and cannot fly your drone.

These geographical zones apply to all categories.

In addition, you are not allowed to fly a drone close to or inside an area where there is an ongoing emergency response.

See the links to National Aviation Authorities at:
