FAQ n.122923

FAQs:

EASA 'Early Certificates' for UK organisations: common issues, Brexit

Question:

Which is the revision of the Exposition (MOE/MTOE/CAME) I should consider as the reference document to be used under the EASA approval issued to my organisation on January 1, 2021?

Answer:

The Approval Certificate issued by EASA on the January 1, 2021 corresponds to the Approval Certificate issued by the UK CAA which was submitted to EASA as part of the early application process. This means that the reference of the Exposition in the EASA Approval Certificate is the same as the reference to the Exposition in the corresponding Approval Certificate issued by the UK CAA. However the Exposition referenced in the EASA Approval Certificate may, in some cases, not be the latest approved Exposition, as some changes might have been approved to that Exposition between the date of issuance of the UK CAA Approval Certificate and the date of issuance of the EASA Approval Certificate.

In line with the EASA certification procedures, EASA confirms that the exposition to be used by the organisation under the EASA Approval Certificate is the latest version of the Exposition approved (either directly by the CAA or if applicable, indirectly by the organisation itself under its approval privileges) before the January 1, 2021.

Please note that the organisation concerned should provide to EASA an updated version of its Exposition in the proper EASA MOE format at the latest by June 30, 2021.
