

European Union Aviation Safety Agency

FAQ n.123569

FAQs:

[Production Organisation](#), [Brexit](#)

Question:

As an EU-based organisation, what airworthiness release certificate is acceptable from a UK-based production organisation for recertification of parts from “PROTOTYPE” to “NEW”, in case where the UK-based POA has previously issued an EASA Form 1 for “PROTOTYPE” part before the end of the transition period and the certification of the design takes place after the end of the transition period?

Answer:

Any potential EASA Form 1 issued by a UK CAA POA holder on or after January 01, 2021 would have no legal value (“null and void”) as an authorized release certificate. Refer to question: [As a UK-based production organisation holding a UK CAA POA, can I release parts with an EASA Form-1 on or after January 01, 2021?](#)

In case the design is approved under an EASA DOA, the UK-based POA can issue a UK CAA Form 1 for “NEW” under the UK CAA POA approval. Additional clarification can be entered in block 12.
