## Description

### Date & Time

15/03/2021, 13:00 - 16:00 (UTC+1)

### Description

EASA is organising a Webinar on fatigue risk management (FRM) in cargo and on-demand operations. The event is primarily intended for representatives from national aviation authorities, the European aviation industry and crew organisations and will take place on **March 15, 2021 from 13:00 to 16:00**.

This interactive online workshop will include practical examples of implementations of FRM in cargo / on-demand operations and a presentation of state-of-the-art technology to support FRM.

With the kind support of Cargolux, the European Cockpit Association and Thales.

In case you have any further questions regarding this workshop, please send them to: [safetypromotion \[at\] easa.europa.eu](mailto:safetypromotion@easa.europa.eu)

### **Draft Agenda**

This interactive online workshop will include practical examples of implementations of FRM in cargo / on-demand operations and a presentation of state-of-the-art technology to support FRM.

The following agenda is planned for the Webinar:

1. Introduction
2. Presentation European Cockpit Association: Freight Flight Fatigue 'Cargo Pilots' perspective during COVID-19 time'
3. Presentation Thales: The need for evolution in FRMS tools and processes
4. Presentation Cargolux: FRM Challenges in Long Haul Cargo Operations
5. Q&A
6. Conclusions

### **Registration**

If you belong to the target group and are interested to participate in this workshop, [please register](#).
