Event Materials

Documents

SAFE360 Conclusions and Full Summary

SAFE 360° (2021) - Event Recordings

FDM Workshop - Replies to questions asked during the live session

FDM Workshop – Monitoring of new safety issues arising at the time of the pandemic

Description

Date

08/06/2021 - 10/06/2021

Description

Download the Agenda at the bottom of the page and visit the new event website to keep in touch will all the latest information.

- Participate now to participate in the high-level panels that will discuss the New Safety Landscape we all face due to the COVID-19 pandemic, and Integrated Risk Management that will help you to integrate safety and security risks together within your management system.
- Learn more about the latest developments in the Data4Safety project. This is the European data analysis and sharing programme launched in 2017 under the initiative of EASA and the

European Commission in collaboration with 12 voluntary European aviation safety partners.

- Contribute to the 360˚ Panels on Training effectiveness and competence, Approach Path Management and Turnaround Safety.
- Take part in the Safety Workshops analysing key safety issues from a 360˚perspective on the Entry of Aircraft Performance Data, the Safe Use of Airspace, and Monitoring Safety Issues with Flight Data Monitoring (FDM). Don’t forget also to join the sessions on FDM Best Practices and Occurrence Reporting.

Join now and join the discussion in the EASA’s Together4Safety Air Ops Community and also in the Conversation Aviation LinkedIn Group. Together we can collaborate to solve our safety challenges.

Registration

The Registration is now closed.

Note that SAFE is only open to aviation professionals and thus, the SAFE 360° Organising Committee will apply a screening for participation eligibility before confirming the registration.
