

FAQs:

[Aircrew Training and Licensing](#) , [Brexit](#)

Question:

The UK CAA is developing a simplified application and validation procedure for recent holders of UK-issued Part FCL licenses. Does EASA plan to implement a similar application and validation procedure for recent holders of EASA licenses?

Answer:

Source: UK CAA

For the time being, there is no plan to develop a simplified application and validation procedure. Accordingly, any validation or conversion of a UK issued license should be done in accordance with Commission Delegated Regulation (EU) No 2020/723
