

Information Session on Human Factor consideration in rotorcraft design

Virtual Event via Webex

Organised by: EASA

Event

Type: Workshop

Date:

27 Oct 2021

Description

Date & Time

25/10/2021, 14:00-17:00 CET (UTC +2)

27/10/2021, 14:00-17:00 CET (UTC +2)

Description

The scope of this info session is to provide an overview of the newly introduced Human Factor (HF) considerations to be applied during rotorcraft design including the relevant means of compliance and guidance material published by EASA.

In this context, the Agency will also describe some typical cases, relevant best practices and possible difficulties that might be encountered by applicants. The overall objective is to help ensure effective implementation of these new certification specifications.
