European Union Aviation Safety Agency

FAQ n.132525

FAQs:

Lithium batteries (Non-rechargeable), Supplemental Type Certificates

Question:

Is the previous approach for minor/major classification presented in STC workshop 2019 still valid for non-rechargeable lithium batteries (NRLBs)?

Answer:

No, it is superseded. Some types of design changes previously eligible for reclassification as minor will have to be classified as major. The new approach applies to projects starting on or after 1st January 2022.
