Summary

Day 2 Panels - Safe360 2022

Day 3 FDM - Safe360 2022

Description

What is SAFE 360° 2022?

SAFE 360˚ 2022 - Safety in aviation forum for Europe, offering an all-round perspective on aviation safety, is now open for registration – further details below.

SAFE 360˚ 2022 is the one conference which strives to break down silos by examining the key safety issues in Europe from a cross-domain perspective. The conference includes the full spectrum of aviation stakeholders taken from up and down the technical and management chain.

The conference follows the Chatham House Rule, which allows its participants to talk freely without judgement. Attendees are asked not to identify and take information out of the conference without the source's permission.

What's covered in SAFE 360˚ 2022?

SAFE 360˚ 2022 is structured as follows:

- Day 1: High-level Panels
- Day 2: 360° Panels
- Day 3: FDM Session
- Additional Flash Talk content that can be listened to outside the conference programme

Participate in the high-level panel that will examine the **EU safety landscape.**
Learn more about the latest developments of **Data4Safety–** The European data analysis and sharing programme launched in 2017 as a joint initiative of EASA, the European Commission (DG MOVE) and 14 voluntary European aviation safety partners (the "D4S Founding Members").

Contribute to the 360˚ Panels on:

- Approach path and energy management;
- Safe airspace integration of UAS;
- The human performance challenge and;
- The management of repetitive defects in safety critical systems.

Take part in a breakout session on FDM to learn about the latest updates.

Access Flash Talk content on:

- What is Safety Culture?
- Integrated safety and security risk management :Unrealistic concept or an operational necessity?
- How to prioritise safety issues?
- Why do you risk classify Occurrences?
- Extending SMS into ground handling.

Who should register?

Priority will be given to fully-engaged aviation professionals from organisations working in the field of commercial fixed-wing operations and coming from regulators, manufacturers, flight crew, ATM/ANSPs, engineers, airports and ground handling.

Where is SAFE 360˚ 2022?

This year, SAFE 360° will be organised as an in-person event so that we can reconnect. It will be held in Brussels from 13-15 September 2022 at the Hotel nhow Brussels Bloom. The conference hotel is conveniently located less than 5 mins walking distance from the Botanique/ Kruidtuin Metro Station.

Join the wider discussion

Sign-up to be part of a Europe-wide collaboration of aviation safety professionals on the EASA's Together4Safety Air Ops Community and also on the Conversation Aviation LinkedIn Group. Together we can collaborate to solve our safety challenges.

Terms of participation

SAFE 360° is an open exchange of ideas where speakers and participants shall abide by Just Culture principles.
It is therefore required that all the participants and speakers commit themselves to respecting the following terms of the charter of conduct governing every interaction that will take place during SAFE 360° 2022:

1. All information is property of the presenting organisation;
2. The information shared will by no means be used for any commercial, competitive or punitive purpose;
3. The information presented to the participants will not be shared with external parties without the clear and written consent of the owner;
4. It is not allowed to record (audio or video) or take photographs of presentations and;
5. Anyone not following the terms for participation to SAFE may be asked to leave the event.
