Switzerland
How to get to Palexpo

Description

EASA will join forces again with its eight "Europe for Aviation" partners at the brand new Airspace World event on 8-10 March 2023 in Geneva, Switzerland. During this three-day global event, we will be working together to promote the modernisation, sustainability and resilience of a safe European aviation and to tackle pressing challenges the European aviation industry is facing.

The **"Europe for Aviation" stand and theatre (#H22)** will host a wide range of briefings, exhibits and demos illustrating collaboration in action between the European aviation organisations working to implement the Single European Sky - the European Commission, the European Union Aviation Safety Agency (EASA), the European Defence Agency (EDA), EUROCONTROL, the European Organisation for Civil Aviation Equipment (EUROCAE), the European Union Agency for the Space Programme (EUSPA), the European Climate, Infrastructure and Environment Executive Agency (CINEA), the SESAR 3 Joint Undertaking

(SESAR 3 JU) and the SESAR Deployment Manager (SESAR DM).

Registration
