European Union Aviation Safety Agency

# FAQ n.137675

## FAQs:

Easy Access Rules XML

## Question:

**Will the changes to topic metadata be part of the version history of a topic and will EASA publish timeline versions of topics?**

## Answer:

In EASA's internal system, the historical versions of each topic are preserved, and the version history includes the changes to metadata for the topic.  For the time being we do not export the history of changes.
