European Union Aviation Safety Agency

# FAQ n.139163

## FAQs:

Application for DPO, Air Traffic Management / Air Navigation Services (ATM/ANS) ground equipment, Regulations

## Question:

**If an ANSP designs and builds an integrated system, e.g. integrating software from various suppliers onto a data centre infrastructure (noting this may involve "DPO" activities, and some specifications can only be fully implemented/verified at this level) is the ANSP expected to certify as a DPO?**

## Answer:

In those cases, yes, the ANSP has to be certified as an approved DPO to have those privileges.
