European Union Aviation Safety Agency

Acceptance of approvals issued by third countries

Some of the equipment produced by our company has a Federal Aviation Administration (FAA) approval and some equipment does not. For the FAA-approved equipment, can you confirm that our company can apply to have the FAA certification accepted by EASA?

Answer

It is acknowledged that there is an EU-USA agreement on cooperation in the regulation of civil aviation safety (i.e. via a Bilateral Aviation Safety Agreement (BASA)). However, there currently are no Technical Implementation Procedures (TIP) for ATM/ANS equipment in place to allow direct acceptance/recognition of FAA approvals/certificates.
