# FAQ n.139299

## FAQs:

Governance, Information Security (Part-IS)

## Question:

**Does the organisation need to establish a separate representative for the information security management system (ISMS)?**

## Answer:

This is an organisational decision depending on the necessary competencies that this person needs to have. The accountable manager may decide to delegate certain responsibilities to a person or group of persons, taking into account their competencies and the requirements detailed in point IS.I.OR.240 of Annex II (Part-IS.I.OR) to Commission Implementing Regulation (EU) 2023/203 and point IS.D.OR.240 of the Annex (Part-IS.D.OR) to Commission Delegated Regulation (EU) 2022/1645 as well as in the related acceptable means of compliance and guidance material (AMC & GM).
