Description

The event is closed. The **PPT presentations** and **the recordings** of the event can be found under **Event Materials**

Join us on 26 November 2024 for the Part 21 Workshop at the European Union Aviation Safety Agency (EASA) headquarters, and on 27 November 2024 for the Certification Conference at Cologne's Botanical Garden ("Flora").

EASA is organising this two-day event that will bring together industry staff, authorities' representatives, and EASA experts and managers to discuss updates in the EASA product certification activities.

The first day (Part 21 Workshop) will take place at the EASA Premises

Address: Konrad-Adenauer-Ufer 3, 5068 Cologne, Germany

The Part 21 Workshop will feature a plenary session as well as side meetings and is dedicated to topics related to certification projects. Individual face-to-face talks with EASA experts will be possible during a dedicated timeslot.

Due to logistical reasons, **the participants will be divided in 2 groups**, and will have to select in which group they wish to be registered:

GROUP 1 (157 persons): The Plenary Session will take place in the morning and the Side Meeting Groups in the afternoon.

GROUP 2 (157 persons): The Side Meeting Groups (identical technical subjects) will take place in the morning and the Plenary Session (identical content) in the afternoon.

PLENARY SESSION ONLY

On-site participants will be split in two conference rooms (Airbus and Boeing) in a classroom

configuration with tables. The panel stage will be located in the Airbus room and will be live-streamed in the Boeing room. **Remote attendance is possible.**

SIDE MEETINGS ONLY

On-site participants will have the possibility to participate in a single side meeting for one topic, in the frame of a small-group discussion. **Remote attendance is not possible.**

COFFEE WITH EXPERTS

On-site participants will have the possibility to have individual talks with EASA experts during a dedicated hour. **Remote attendance is not possible.**

The first day (Part 21 Workshop), which will feature a plenary session as well as side meetings, is dedicated to topics related to certification projects. Individual face-to-face talks with EASA experts will be possible during a dedicated timeslot.

The second day (Certification Conference) will take place at Cologne's Botanical Garden Flora

Address: Amsterdamer Str. 34, 50735 Cologne, Germany

The Certification Conference is dedicated to developments in major policies and is thought as a productive event, offering unique possibilities for direct exchange with EASA staff.

Be part of this journey to influence the shaping of future certification policies!

Capacity for external participants: 315.

Capacity for remote participants (WebEx): Unlimited.

Remote attendance for the plenary sessions (one in the morning and one in the afternoon) will be possible.

The all-day session will take place in a conference setting.

The presentations will be made available after the event under "Event Materials" on this page.

The remote attendance participants will receive by email the links and passwords to access the streaming platforms latest by Monday, the 25th of November. Please note that there will be one platform for the Plenary Sessions on the 26th of November and a different platform for the Certification Conference on the 27th of November.

Agenda

You can download the provisional agendas for both days below:

Provisional agenda Day 1 — Part 21 Workshop 2024

Provisional agenda Day 2 — Certification Conference 2024

Registration

Registration is now closed.
