EASA Part-IS implementation workshop 2025 — Day 2 video recording

Description

About the event

The Part-IS Implementation Workshop 2025, hosted by the European Union Aviation Safety Agency (EASA) in Cologne is building on the conclusions of the previous workshop to provide further insights on the preparation for the implementation of the new rules.

The aviation community is invited to the event to discuss challenges and share experiences so far related to the management of security risks with a potential impact on aviation safety.

With less than a few months remaining for the implementation of Part-IS, this workshop is the last milestone of its kind open to the wider public allowing for delving into potential implementation challenges and corresponding solutions.

What to expect in the Part-IS Implementation Workshop 2025

The workshop aims to provide further insights and details on the oversight approach by the applicability date while providing further examples that will highlight the safety-driven nature of Part-IS and will help in implementing the regulatory provisions in an effective manner.

The agenda of this event has been formulated considering the feedback received from the previous workshop and from other forums in relation to the main implementation challenges identified so far and the solutions already proposed to counter those challenges.

The draft agenda has been published. Updates will follow during the coming weeks, including the names and organisations of the confirmed speakers and experts that will participate to the event.

This event will additionally be **live-streamed on the EASA YouTube channel** and will remain available thereafter:

- **Day 1 Part-IS Implementation Workshop 2025 livestream**
- **Day 2 Part-IS Implementation Workshop 2025 livestream**

Presentations will be made available after the event under ‘Event Materials’ on this page.
