Description

The TSO Workshop is organised in turn by ANAC/EASA/FAA/TCCA. This year ANAC is hosting the 20th TSO Workshop in Sao Jose dos Campos, Brazil⁽¹⁾.

The workshop has become a popular and regular forum for the worldwide community of TSO manufacturers, installers, and operators. Topics of common interest in the various fields of aviation equipment are presented and discussed, aiming at updating participants and getting their feedback on industry and authority initiatives concerning operational, design, manufacturing, and regulatory matters with the common scope of fostering safety.

Besides ANAC, as usual also EASA, FAA and TCCA representatives will actively participate to the event, providing updates on their related activities and on cooperation/bilateral issues. This time, CAA UK will also join the event as part of the authorities' team delivering the event.

The event will consist of a general part on day 1, covering topics of general interest for all participants; and technical sessions on day 2, with more targeted discussions on the domains of avionics and mechanical systems. The detailed agenda will be made available on the ANAC webpage when finalised.

For more information, please refer to the [ANAC website dedicated to the event](#)

(1) the closest international airport to Sao Jose dos Campos is the Sao Paulo/Guarulhos International Airport (GRU)
