Description

The EU–South Asia Aviation Partnership Project (EU–SA APP) is pleased to announce the upcoming **Regional Aviation Safety Programme (RASP) – Module 1** workshop.

Over three days, this module will bring together regulators, operators, and ATR experts to build a shared regional safety picture, strengthen Safety Management System (SMS) capabilities, and enhance the use of Flight Data Monitoring (FDM) as a data-driven tool for hazard identification, risk assessment, and oversight.

We look forward to productive exchanges and to supporting continued collaboration across the

South Asia aviation community!
