

European Union Aviation Safety Agency

FAQ n.143551

FAQs:

[Certification Authorities for Transport Airplanes \(CATA\)](#), [International cooperation](#)

Question:

Can Industry submit a proposal for a CWI? If so, what is the process?

Answer:

Yes, Industry can submit a proposal for a CWI to the CATA Chair through the Industry Lead. The CATA will discuss the proposal and decide how to proceed. The CATA Chair may also contact Industry with a request for additional information, if needed. The CATA Chair will inform Industry of CATA's decision whether to move forward with a new proposed CWI that will be submitted for CMTS approval.
