European Union Aviation Safety Agency

FAQ n.143556

FAQs:

Certification Authorities for Transport Airplanes (CATA), International cooperation

Question:

Can a non-Industry member of the public provide comments on a closed CWI? If so, what is the process for submitting comments?

Answer:

A member of the public may comment on a closed CWI by sending comments to the CATA contact provided on the CATA main page. CATA will review the comments and decide whether further action is necessary. The CATA Chair will acknowledge receipt of the comments and provide an update to the commenter once a decision has been made.
