### **Description**

COMMISSION REGULATION (EU) No 83/2014 of 29 January 2014 amending Regulation (EU) No 965/2012 introduces Subpart FTL to Part ORO and two new paragraphs to Part ARO. This new Subpart FTL applies as of 18 February 2016 and sets the legal requirements for the approval of fatigue risk management (FRM).

The main objective of this workshop is exchanging views and information regarding the approval and oversight of FRM in accordance with ORO.FTL.120.

The event is primarily dedicated to representatives from the European aviation

industry, in particular European operators of commercial air transport, and from national aviation authorities.

This workshop will include practical examples and presentations from industry and competent authorities.

To make this an interactive workshop we kindly ask participants to send us your suggestions and questions relevant to the approval and oversight of FRM beforehand to [air\\_ops \[at\] easa.europa.eu](mailto:air_ops[at]easa.europa.eu).
