Description

The new Commission Regulation on the licensing and medical certification of air traffic controllers is expected to be published soon and will become applicable on 30 June 2015.

In order to assist stakeholders to prepare for the implementation EASA organises a workshop focusing on the new requirements and aiming to familiarise with the use of Acceptable Means of Compliance and Guidance Material, being established by the Agency.

The workshop targets competent authorities' personnel engaged in oversight activities, experts of air navigation service providers and ATCO training organisations engaged to implement the new rule, as well as representatives of professional organisations.

The one-day workshop will take place in Cologne, Germany, on 27 March 2015. The provisional agenda is attached for your information. Participation to the workshop requires advance registration, open until 6 March 2015. Confirmation of registration will be required to ensure participation. Due to the restricted availability of places the Agency reserves the right to accept only limited number of participants per organisation.

For registration, please complete the attached form and submit it via e-mail to Mr Manuel Estrada [manuel.estrada \[at\] easa.europa.eu](mailto:manuel.estrada@easa.europa.eu)

Registration for the workshop is now closed and event is complete.

The Agency is planning to organise further events in 2015 to support the implementation of Regulation (EU) 2015/340, published on 6 March 2015 in the Official Journal of the European Union.

The Regulation can be accessed via the following [link](#).

Further information on the follow-up events will be communicated via the website of the Agency.
