

FAQ n.19124

FAQs:

Air Operations - General, Air Operations, Regulations

Question:

I am not familiar with the Air ops rules' structure. Which parts apply to which operators?

Answer:

Reference: Regulation (EU) No 965/2012 on Air Operations and the associated Decisions

This is determined by the nature of your flight, and in the case of non-commercial operations, by the type of aircraft used. The following diagram indicates under which requirements your flight should be operating.

Commercial		Technical rules: Part-	
operations	Commercial air transport (CAT) operations	CAT	
		Operator rules: Part-ORO Technical rules: Part-	
	Specialised operations (aerial work)		
		SPO	
		Operator rules: Part-ORO	
			Technical rules:
		With	Part-NCC
	Non-commercial operations other than SPO	CMPA:	Operator rules:
	(e.g. business/corporate flights, leisure flights private flights, training flights)		Part-ORO
		With Ot-	Technical rules:
		CMPA:	Part-NCO
			Technical rules:
	Specialised operations (aerial work)	With	Part-SPO
		CMPA:	Operator rules:
			Part-ORO

Page 2 of 2

W	ith Ot-	Technical rules:
CI	ИΡА	Part-NCO

Part-SPA (specific approvals) applies to all types of operations, as the case may be.

CMPA = complex motor-powered aircraft

Ot-CMPA = other-than complex motor-powered aircraft
