European Union Aviation Safety Agency

FAQ n.19207

FAQs:

Acceptable Means of Compliance (AMC) and Alternative Means of Compliance (AltMoC)

Question:

Why should I follow an AMC?

Answer:

Because if you follow the EASA AMC there is a presumption that you comply with the rules, and competent authorities will recognise that compliance without the need for any further demonstration of compliance from your side. If you choose to use alternative means to comply with the rule, you will need to demonstrate compliance with the rule to your competent authority. The burden of proof of compliance rests fully with you.
