

FAQs:**EWIS ICA requirements****Question:**

Are all the EWIS ICA from the TC holders' affected aeroplanes available by now (status July 2010)?

Answer:

The TC holders for the affected aeroplanes have finalised their EZAP/EWIS ICA exercise. With a few exceptions to be soon resolved, final documents are approved by the FAA and accepted by EASA for all affected TC holders (EU/Non-EU). The approved EWIS ICA has to be made available to the affected persons. The EZAP analyses do not form part of the TC holders EWIS ICA.
