European Union Aviation Safety Agency

FAQ n.19478

FAQs:

General, Airworthiness Directives (ADs)

Question:

Where can I find a State of Design AD issued before 28 September 2003 (start date of EASA) if it is not in the Safety Publications Tool?

Answer:

All ADs issued by the State of Design (SoD) Authorities before 28 September 2003 should be retrieved from the relevant SoD websites. Please consult the list of Useful links on the EASA Airworthiness Directives page.

SoD ADs issued before 28 September 2003 are progressively uploaded to the EASA Safety Publications Tool by the Safety Information Section. Once this upload is finished, an announcement will be made on the EASA Airworthiness Directives webpage.
