European Union Aviation Safety Agency

FAQ n.19527

FAQs:

ATCO Licensing, Regulations

Question:

In case we have specimen of the new licences before issuing them, would EASA be in the position to verify whether they comply with the new requirements?

Answer:

EASA would naturally advise competent authorities via various forms and fora on the implementation of the new requirements. However, the advance verification of licences not yet issued would not be in line with the shared competences in this domain and wouldn't be compatible with the Agency's task to conduct the standardisation inspections neither.
