European Union Aviation Safety Agency

FAQ n.19598

FAQs:

Data package required, Certification Support for Validation (CSV), Certification Support for Validation (CSV)

Question:

What is the data package required for validation of an EASA Type Certificate (TC) or Design Change (Supplemental Type Certificate (STC)/Major Change Approval) by the Federal Aviation Administration (FAA)?

Answer:

FAA requirements are detailed in the EASA-FAA Technical Implementation Procedure and captured for your ease of use in the check sheet below:

- Checklist for data package required by the FAA for validation of EASA Certificate/Approval
- EASA Outbound Checklist for STCs/Major Change Approvals to be validated by FAA
