### Description

Since 26 May 2014 EASA has the mandate to authorise third-country operators (TCO) for flights to Europe. This technical authorisation issued by EASA becomes a pre-requisite for TCO applying for commercial traffic rights with EASA Member States. For this reason EASA is organizing a third workshop session on TCO Authorisation for EASA Member States on 10 December 2015. The main purpose of the venue is to inform EASA Member States focal points on the status of TCO applications and authorisations, to strengthen communication and to discuss practical issues and problems on working practices especially during the transition phase coming to its end on 26 November 2016.

The participation in this Forum is limited to all focal points nominated by each EASA Member States.
