**09 Apr 2016**

---

### Description

Time: 2pm-7pm

Location: Austria Center Vienna, hall E, Yellow level [www.acv.at](http://www.acv.at)

---

On 9th April the second GA Roadshow took place in Vienna. The event was organised by Austro Control in cooperation with EASA in the frame of the 'Season Opener'. Besides a strong high level representation from Austro Control more than 300 interested GA representatives (pilots, aircraft owners, maintenance staff, ATOs etc.) attended the GA Roadshow in Austria and followed with great interest the intensive one hour presentation which was given by GA Roadmap Project Team member Jannes Neumann about already implemented changes in the current rules and the outlook on future alleviations to come in the area of GA. The next GA Roadshow will take place in Sweden on Saturday, 4th June.
