Description:

The Agency draws the attention of the aviation community to the above referenced information, copies of which are attached to this CZIB. This CZIB is issued on the basis of information available to EU Member States and EU institutions. Due to the hazardous situation, it is assessed that the risk of operation and overflight over North Sinai Governorate below FL250 is HIGH.

Recommendation(s):

Operators should take this information and any other relevant information into account in their own risk assessments, alongside any available guidance or directions from their national authority as appropriate. Latest operational information on 'Closures and warnings' issued by means of ICAO State Letters, NOTAMs, AICs/AIPs, EASA CZIB may be found in the [Network Manager NOP Portal](#) (password protected version).

Affected Countries:

Egypt

Appendix 1
