

Subject:

CZIB No.: CZIB-2017-05R17 **Subject: Airspace of Somalia**

Status:

Active

Issue date:

31/03/2017

Revision date:

Wed, 30/04/2025 - 12:00

Revision 17 issued 30 April 2025. The validity of the CZIB was extended until 31 October 2025.

No changes to the content.

Valid until:

31/10/2025

31/10/2025, unless reviewed earlier.

Referenced publication(s):

Aeronautical Publications issued by or on behalf of Somalia, by the Aviation Authorities of the neighbouring States and by the State of Operator.

Affected Airspace:

Somalia airspace, below Flight Level (FL) 260.

Applicability:

Applies to operators

Description:

This CZIB is issued on the basis of information available to EU Member States and EU institutions. Due to the hazardous situation, with the presence of terrorist organisations with confirmed anti-aviation weaponry, possibly MANPADS (man-portable air-defence systems) and ongoing military operations, it is assessed that the risk of operation and overflight below FL 260 is HIGH.

Recommendation(s):

EASA recommends air operators not to conduct flights over Somalia at or below FL 260.

Air operators should closely monitor airspace developments in the region and follow all available aeronautical publications issued by Somalia, or on their behalf by the Aviation Authorities of the neighbouring States, including information shared through the European Information Sharing and Cooperation Platform on Conflict Zones, alongside available guidance or direction from their national authorities.

Affected Countries:

Somalia
