Description

The EASA Rotorcraft Symposium is the European forum dedicated to the rotary wing community where Authorities, Industry, Operators, and researchers from all

over the world are invited to share their work and ideas on rotorcraft airworthiness, operations and sustainable new technologies for the promotion of Aviation Safety.

This year’s agenda will encompass diverse disciplines and attractive topics. The discussions will span from Initial and Continuing Airworthiness to Certification Standards, whereas the Agency is also proud to support research projects, and host discussions on LPV approaches, new Hoist designs, Crashworthiness, Survivability and Bird Strike.
