

## FAQs:

Maintenance Organisations (MOA) / Maintenance Training Organisations (MTOA), Applications for organisations, Certification of products and organisations

## **Question:**

## How much does my application/certificate cost for a Foreign EASA Part-147 approval?

#### **Answer:**

For costs related to your approval, please refer to the tables sorted by application type that are provided in the Annex of the EASA fees and charges regulation <u>Commission Implementing</u> <u>Regulation (EU) No 2019/2153</u>. Please review especially table 10 of the Fees & Charges Regulation (<u>Commission Implementing Regulation (EU) No 2019/2153</u>). The table explaining how we practically determine chargeable courses and sites is also available in the <u>FAQ section</u> <u>C.4.5 of the Fees and Charges regulation</u>

Please note that the fees are subject to an annual inflation rate and do**not** include the travel costs associated to on-site audits (flight & train tickets, accommodation and travel hours -which are charged on an hourly rate basis- etc...). These will be charged separately.
