European Union Aviation Safety Agency

FAQ n.22051

FAQs:

Licensing, Aircrew, Regulations

Question:

Can a co-pilot apply for a TRI rating on a multi pilot aeroplane (MPA)?

Answer:

Yes, but the rating has to be restricted to simulator training only. The reason is that FCL.915 b) (3) stipulates that all instructors providing flight training in an aircraft have to be able to act as PIC during the training flight which would not be allowed to a co-pilot.
